Situation In Hamilton And Throughout The District Is Becoming Very Grave — Shortage Of 570 Active Beds In Hamilton General At Present Time.

220,000 POPULATION

Patients Are Sent Out Before Their Time - West Lincoln Memorial Hospital Will Bring Relief To This District - Probable Enlargement In The Spring.

A recent report submitted by a joint building committee appointed by the Medical Board of Hamilton General Hospital and the Hamilton Academy of Medicine, is of particular interest to the people of this district, as our readers will note that we are included as an outlying district.

The Independent is advised that the West Lincoln Memorial Hospital will absorb to some extent the needs of this district, and that in all probability a new wing to raise accommodation to 50 beds will be considered by next spring.

We print herewith some excerpts from the Hamilton report which quite clearly show the shortage of hospital accommodation in that

At last the great day is at hand. The big drawing that you have been waiting or is about to take place. "Kammy's Kow", that royally be of Hereford heifer so generously donated to the Cigarette Fund by Jack Puddicombe of Winona will have a new owner and a new home come Sunday morning.

Drawing for this prize heifer will take place at Moore's Theatre on Saturday night between the first and second shows. All tickets on sale in Grimsby stores will be gathered up on Friday night. Ticket sales on Saturday will be confined to street sales. All ticket sales will cease at eight o'clock Saturday night, so if you want a chance on this fine young bovine you better get busy.

Tickets have been sold all over the district and last week "Cammy" received a letter from Alex. Miller of Timmins, enclosing a dollar bill and asking that five tickets be sent to nam at once. He probably has visions of starting a high class herd of cattle in the North country and would like this little baby for a nucleus. So folks hurry and get your tickets.

FACTS & FANCIES

Frank Fairborn, Jr.

THEY WOULD LEAD US DOWN THE GARDEN PATH

(A Business Man Views The Scene)

My generation has been through the first Great War, the Great Depression, and is now in the second Great War. Must we go through the Great Experiment? I don't relish the prospect.

We all owe much to Mr. Donald Gordon for handling a tough job well; but because rigid industrial controls are necessary in wartime, should they be continued afterward? That's no argument. We train men to kill in wartime, and hang them for killing in peacetime. Build a Utopia on the basis of · Government ownership and operation of industry? No, thank you-I've seen too much of Government operation, both from inside and outside.

A Government operation lacks three essentials to efficiency-the hope of profit, the fear of loss, and the regulating influence of competition. So the hiring machine works overtime while the weeding knife and the pruning hook gather rust. As far as the right hand is concerned, what the left hand does is a military secret - and decisions must be made by the man higher up, when he has the time. If an ordinary peacetime business were run along the lines of marv Government operations it would soon land in bankruptcy; and all this is no reflection on the calibre of Government personnel - it's just the system. Private business has to survive the acid test-it must satisfy the consumer and stay solvent.

They blame the Great Depression on the capitalist system. I've heard the capitalist system blamed for a lot of things in my time. Ten years ago it was fashionable to say that capitalists started wars for their own profit. Does any one believe that now? If he must name one goat among the many causes of the depression let him pick on the high tariffs of creditor nations.

A word about war aims. What are we fighting for? In the C.C.F. manual, "Make This Your Canada," appears a projected speech by Mr. Coldwell. After urging all Canadians to follow him in putting C. C. F. theories into practice, he states: "This is the chance for which we have sacrificed so much to win the war." I served in the last war, and have two sons on fighting fronts in this one. They enlisted for the same reason that I did-to keep the Huns out of Canada, not to make it a paradise for economic experimenters and bureaucrats.

Male this your Canada? Fellow-Canadians, you don't have to - it's you now. If it's worldly goods you want most, your share depends mainly upon your own brains industry, initiative and thrift, as it always has. Many have got more worldly goods out of it than I have, because they have more of those qualities. If they made their money honestly, they're entitled to it; if they got it dishonestly, we have more than enough laws now on the statute books to put it back where it rightly belongs. Morever, in making their fortunes, they generally made three blades of grass grow where one grew before, and, in the nature of the apitalist system, they didn't keep all of the extra two-I got some of it, which I wouldn't have had but for them. Taxes and duties are quite high enough to reduce to modest circumstances those people with money they didn't earn.

There is room for improvement in our economic world, and there always has been. These improvements are continually being made. Witness the fact that the standard of living of our Canadian workingman is three times as high as it was-in the last

Inder the capitalist system men anding capacity automatically century. with out top and produce the extra blades grass, and they don't get there by promises, but by performance. No bright revolutionary ideas are needed to make this your Canada, but vigilance is needed, or some people will try to make your Canada a guinea pig.

LEST WE FORGET

There has been so much pessimistic talk about tile "Post-War Period" that many people are locking forward with dread to the time when the war will be over. Certain political prophets are cultivating this fear of the future. When they look backward on the history of Canada, they can see nothing but the Depression of the early 'unirties, and when they look forward the prospect is even blacker. To these prophets of gloom it would seem that the coming of world peace will be a greater calamity than the world war.

That there will be a difficult period of industrial reconstruction after the war is inevitable, but there is no need for pessimism. So far as Canada is concerned there is every reason for optimism from a long-range point of view. This country has been untouched by actual warfare. Our ports and cities are intact. Not one hostile bomb has been dropped on our territory. When the war is over we will not be confronted with the task of rebuilding shattered cities, and we will enter the post-war period fully equipped and free to engage in the stupendous task of world reconstruction.

In entering upon that task, Canada first duty is to assist in the rehabilitation of the people of Great Britain. In a pamphlet entitled "Hard Times Ahead?", Sir Ernest Benn presents a survey of what it has meant for Great Britain to wage two great wars for world freedom. He points out that until the Kaiser's war the United States was a debtor nation, still owing some of the European money on which her railways and industries were founded. Britain was the world's creditor before the First Great War, and as a result of that struggle to "make the world safe for Democracy," she became a debtor nation. For the first time in her history Britain resorted to borrowing from the United States, but she lent twice as much to Russia, France, Belgium, Italy and others, and those countries never paid their debts. Britain only borrowed on behalf of those countries whose credit was not acceptable to the United States.

During the present war Britain has sacrificed everything. She has sold the greater part of her overseas investments, has borrowed beyond the limit. Britain's merchant fleet lies at the bottom of the seas and her foreign trade is gone. Hundreds of her fighting ships have been sunk in battle for freedom of the seas. British cities have been laid waste and the British people have for over four years endured untold horrors and privations - for what? The Battle of Britain was fought to save that country from Nazi occupation, and if it had been lost Hitler would long ago have established his headquarters in London and have secured full control of the Atlantic and the Mediterranean. Instead of turning upon Russia, the German hordes would have continued westward, and Canada before this would have been invaded.

In his recent address to the British Houses of Parliament, Prime Mini ter Mackenzie King said. "Clearly the maintenance of human freedom has depended on the preservation of the freedom of Britain. . . . The free nations of the world can never forget that it was the indomitable resistance of the people of Britain that bought the precious time for the mobilization of the forces of freedom around the globe." But what did it cost the British people to buy that precious time? They stood and fought alone against the enemy of world freedom - of Canada's freedom.

The title of Sir Ernest Benn's pamphlet. "Hard Times Ahead?" is addressed to the British public, but it is also a question that comes home to the people of Canada. Will Canada be prepared to stand by Britain in her hard times of peace as she has done in the perilous time of war? This is not a question of Empire unity so much as one of national sincerity and moral indebtedness. The Eritish people must not again be left to "rtand alone" in the hard times ahead. They have beggared themselves economically ad commercially for world freedom, and have laid mankind under a moral and spiritual debt which our Prime Minister says "the world can never forget." "Lord Goo of Hosts, be ith us yet; lest we forget."

WAY BACK WHEN

Frank Fairborn, Jr.

I have before me a copy of The Independent of June 4th, 1913-just 31 years ago It was a bright snappy paper then as now. The late Jas. A. Livingston was Editor and Publisher and J. Orlon Livingston was News Editor, although at that particular time "Bones" was in Western Cenada following the Western Canada Racing Circuit for another Livingston publication, The Canadian Sportsman.

In this issue we find that James Marvin Wentworth had been severely injured in a rear-end collision on the H. G. & B. at Winona, a week previous, and was laid up in bed at his home on Clarke street issuing dire threats of what he was going to do to the railway company. He had instructed his lawyers, Lewis and Arrel of Hamilton, to take action against the railway. Horse races and baseball games were to be staged at a matinee on the race track (Fairview avenue) on Wednesday, June 13th. County Council let a contract for road oil at eight cents a gallon. . . . Citizens are raising Old Ned about the dust nuisance on the Q. & G. road (No. 8 Highway) between Grimsby and Grimsby Beach. . . . Work on the new post office is proceeding slowly owing to the scarcity of stone and brick masons. . . . Grimsby's courty assessment was reduced \$1,700 cm account of land for the new Post office being taken over by the Federal government. . . . Miss Beatrice L. Winter of Simcoe was married at the home of Mr. and Mrs. Robert Elwood, Robinson street, to Mr. E. Harold Darling, a professor at the O. A. C., Guelph. Miss Hazel Elwood was bridesmaid. . . John Clarke, a brother of the late W. F. "Uncle Bill" Clarke and a native son of Grimsby, died in Cleveland, O. at the age of 74 years. He was an uncle of our own Andy Clarke,

Tenders were called by Ottawa for the new Welland Ship Canal. . . . Chief of Police Daniel Eugere Swayze was having plenty of trouble with tramps and drifters. . . . In the draft of Methodist ministers at the Conference in St. Catharines, Rev. James S. Ross, M.A., D.D. was appointed to Grimsby. Remember him? Big six foote. broad of shoulder and a square cut grey beard. . . . H. G. & B. gave notice to fruit growers and the shippers and receivers of freight that in future all freight and fruit must be shipped and received at and from designated points along the line, instead of the freight cars stopping at every platform for loading and unloading as had been the custom. . . . W. F. Randall and John H. Gibson were advertising lots for sale in a new survey that ran east on the Randall property from Maple avenue, behind the row of houses on Main street, to the Gibson property which fronted on Main, two new streets, Ranson avenue and Wilton avenue were to be laid out. The survey came to naught. . . . The Naval Bill whereby Canada would build and donate three cruise-s to the British Navy, had passed the house of the Borden government but was killed in the Liberal Senate. Frank Fairborn in his Facts and Fancies had plenty to say about this. He took the coats and vests, off the Grit Senators, particularly the Hon. George W. Ross who had led the Ross government in Ontario for 30 years.

There is only one merchant doing business in Grimsby today who was in the same business in 1913. Henry Bull. He was advertising his spring stock of boots and shoes. . . . W. L. Hai ., was doing painting and Charles Wasnidge was running the stone blacksmilli shop at the bridge. . . . Rodger, Wray and Greenaway were advertising Sunshine furnaces and Farrell's Shoe Store guaranteed you cool weather footwear. Bourne Bros. would sell you Arsenate of Lead and E. S. and R. T. Johnson claimed that their groceries and danties were absolutely fresh. . . . Norman Walker was doing plumbing and heating and K. M. Stephen promised a \$2 discount

on every gentleman's suit sold. A. F. Hawke of The Central Store was advertising a special line of Holeproof Hosiery and stated that his millinery department was carrying an excellent line of hot weather headgear for ladies. . . . J. O. Moore, at his store at Grassies was featuring the old reliable Coronation flour at \$2.60 for 98 pound sack. Scott and Sangster were in business in their present location and a man by the name of W. J. Collier was prepared to teach you French and Spanish at moderate terms. Parke and Parke of Hamilton were advertising "Paper Diapers" at 50 for 65 cents.

In the Personal Column we note that Edw. and Mrs. Norton and children spent Sunday at Jordan. Fishing no doubt. . . . Richard Palmer of Toronto spent the weekend with the Misses Dolmage. . . Barnum & Bailey Circus will play in Hamilton on June 18th. . . . Grimsby has a second Chinese Laundry, Charles Sing. He cut prices on his work and lasted three months and the tub wore out "B" Squadron 2nd Dragoons, "B" Co. 44th Regt. and the 44th Regt. Band are in camp at Niagara, "Banty" Culp playing solo cornet and Jack Gibson the slide trombone. . . . W. R. Nevills has sold a small fruit farm on the mountain to W. Wynn. . . . Book Bros. have opened up a new stone quarry on their farm on the mountain. George Garr is also taking stone out of his quarry. . . . Miss Mable VanDuzer of Winona entertained at tea on May 31st in compliment of Miss Verna Rowena Smith Tevlous to her marriage to Mr. Gordon Conant of Loukes sold his 10 acre fruit farm ly just west of Grimsby Beach to Genner and Leacer of Toronto. for \$12,500. . . . Miss Myrtle Forman librarian of Grimsby Public Library is in Toronto 'aking a librarian's course. . . . A Union picnic of all Grimsby Sunday schools was to be held to Victoria Park, Niagara Falls, on June 26th. . . . W. E. C.Illingford was selling to the housewives "Alca" hand vacuum cleaners at \$6.50, one day's free trial. . . . The Independent was beseeching some capitalist to build 25 new houses in Grimsby. The housing situation, then as now was acute. . . . Grimsby Boy Scouts under Asst.-Scoutmaster Harold Metcalfe were attending a celebration of "The Battle of Stoney Creek". . . . Mrs. T. R. Ferguson of Uxbridge was visiting her parents, James and Mrs. Coulson. She still lives in Uxbridge. . . . Beamsville citizens were to vote on a \$20,000 bylaw for a new High School. . . . Tra-la-la.

REFORM FROM THE BARNYARD

(News Note-"Church owns cow. She's a Presbyterian, and gives the milk of human kindness.")

Have you heard of the latest evangelical fad? 'Tis a quaint innovation that isn't half bad. Community children will be brought up now On the milk of a good Presbyterian cow. The next generation won't have to be taught To leave off the many bad things that we

ought-But while they're converting the gentle old brute.

The other good people might well follow suit, For what could be a greater object lesson, I

Than a hen that could lay a strict Methodist

A pig from a clean Congregational yard Could yield but the purest of orthodox land; While the downiest feather one ever might pluck

Would grow on the breast of an Anglican duck!

We'd have holiness turkeys and sanctified

Episcopal sheep with canonical fleece; And when they make Baptists of horses and

Maybe man will let up on his sowing wild

Prairie Chicken Tells a Story

The oldest Royal Caradian Army Cadet Corps | ada's Armed Services today. The young cadets And now for strawberries and cream if in Alberta is that of the Blood Indians of St. Paul Residential School, near Cardston. Their names sound quaint to English ears-Dan Bad Arm, Tommy Soup, Dan Rides in the Door, Allen Small Face, and Don Weasel Moccasin, are some of them but they are the names of loyal young Canadians, whose fathers in the Great War fought gallantly for the Allied cause, and whose brothers from points across Canada, numbering 2,300 are serving in Can-

shown above long for the day when they will be of age for active service, too. They are natural crack shots and drill faithfully. Here they listen attentively while Tom Prairie Chicken, a member of the Corps 30 years ago, tells the story of an ancient rifle found at the site of the last great Indian buttle between the Bloods and Crees. INSET-Cadet Lieut. Henry Standing Along is left-handed but still an outstanding rifle shot .- (Canadian Army Photos).

Mainly For MILADY

Provides Full Wedding Service

How does the cost of being n arried compare with the cost of being born with first-class hospital service, or of being buried by a firstclass mortician? Most people perhaps would assume that marriage costs more than birth or death. For instance, a license is needed to be married but not to be born or to die. For marriage, too, there is a clergyman's fee which is generally expected to be more generous than the fee for burial. Weddings, in fact, for many are an economic nightmare. In New York, however, there is a service that supplies a smart wedding for \$145. For this there's the bride's wedding cress and veil, 50 invitations, six photographs, a 4-course wedding breakfast for 30 guests with cocktails that are not all fruit. The affair is staged in a downtown hotel and the service not only supplies flowers but also handkerchiefs for the bride's mother to weep into, and her father, too, for of course, he is expected to pay for it all.

Silk Worms On Way Out

Silk from wool is now being made in an English laboratory by three chemists connected with the wool industry. First of all, the wool has to be gassed. That is no exaggeration. It is literally passed through a chamber filled with chlorine gas. This makes the wool unshrinkable and not liable to felting. Then the wool is put in a ferment that contains, in addition, the same kind of chemistry as a clothes moth, the juice of a tropical fruit the pawpaw. The result is a fabric that is free from one of the great drawbacks of wool-it won't shrink or tickle - and in addition, it has the sheen of silk. "I put on a vest of it," said a woman visitor to the laboratory, "and it might, from the feel of it, have been made from dull, unfinished silk. Yet it had one warmth and stretch of wool." These scientists feel they have something that will make silk worms obsolete and manufacturers of moth balls bankrupt.

Army Nursing Service

Oldest of today's three armed forces nursing services is that of the Royal Canadian Army Medical Corps. The first call for trained but the graceful aspects have not chocolate, bread crumbs, and women to nurse the Canadian forces came in 1885 during the Northwest Repellion. Six graduate nurses and four sisters of the Order of has been left its graceful length buttered pan and bake in electric St. John answered that plea and proceeded "to the front by the Moose Jaw Trail." Though their service received merited appreciation, it was not until June, 1899, that a general order was issued stating "the creation of a Canadian Army Nursing Service is in contemplation and will proceed at a future date."

The first Canadian nurses went overseas to the South African lots of breads. Although we may Take a Tip: War in 1899 and returned late in 1902 with their place so well established in the forces that in 1904 provision was made for a nursing reserve of 25 members, which was raised to a permanent corps in 1906. Nursing sisters became recognized as army officers and were given relative rank. This Canadian procedure was later adopted by the United States and within the past few years by the British Army.

During World War I more than 2,000 rarsing sisters served overseas and their heroism won them nearly 600 decorations and mentions in despatches. After the armistice the permanent corps of the service was retained and a current registry of qualified women available for active service was set up within the directorate of medical services, Department of Defence. Thus it was that when war broke out in 1939 there was no question of a tedious reorganization and it was but i quick step to mobilize again for immediate action.

Wishing On The Moon

Ever stand in the purple twilight, look over your left shoulder. and make a wish on the moon? Of course you have. Everyone wishes on the moon at one time or another. It's a queer quirk in human nature that we still believe in magic, lucky horseshoes, four-leaf clovers and wishing on the moon. But it would take a lot of wishing on the moon and lucky stars to help us out if there were no price ceiling in Canada . . . if someone could charge you a dollar a dozen for eggs or a couple of dollars for a pound of butter.

The moon couldn't make your wish come true if inflation had you by the throat. If you had to pay \$4 a pound for just plain everyday beef, as they do in Chungking. Or factory cotton for a bed-sheet set you back \$8 a yard.

Where low grade rice costs 40c a pound, the finer grade 80c and salt 98c a pound. Where a small cake of washing soap costs \$1.40 and a pair of lestler shoes \$69. Even the man in the moon would pale at that and turn his face away from the earth in shame.

A Polish woman could find all the lucky horseshoes in christendom, but they couldn't bring her much luck now, because her main job-that of trying to 1 nd food for her family-is such a task that she spends nearly all her waking hours trying to get hold of some. But it she did happen on a lucky day, she might find bread at \$1.30 a loaf () the black market) butter for a mere \$25 a pound, and soap at \$46 a cake. Outside of the black market she wouldn't see these articles at

It would be hard to believe in fairies if you lived in Finland where the tread is 60% potato flour, 25% cellulose (sawdust) and 15% mixed grains. Where an adult doing hard physical labour is only allowed a half pound of beef or pork a month. Where sugar, spices, coffee, wheat flour and conserves are only memories and coffee is made from reasted acorns and burnt barley.

So for Canadian housewives, price control is the lucky talisman that is helping us to be one of the best fed nations in the world, and in keeping our prices to the level where milk, butter, mear, eggs, petstoes and oranges are a huppy everyday reality-Edna Jacques.

Make It Into A Dress

When a man's shirt is so worn at the neck and cuffs that it to her c/o The Independent. Send can't be worn, there is still plenty of material to make a cotton dress or an apron. Where possible, use the bottons or button holes down the front- it saves an hour's work. Two worn shirts of contrasting color can often be combined to make a smart cotton frock for your eight year old daughter

. . .

down into the pile.

THE BOWL

By ANNE ALLAN Hydro Home Economist

Hello Homemalters: Weddings bread crumbs, packed solidly, are lovely to remember. The war- thspns. flour. time wedding may have priorities been restricted. The bride's dress and she maintains the right to oven (325 Dog. F.) Shape with have a traditional frosted wedding tiny biscuit cutter and put togeth-

There is more tea available, but- tween and on top. ter may be extended and there's have to skimp on the sugar if we make our little cookies and cakes successfully for the wedding lunch-

Retaining such symbols and atmosphere as seem significant to you, don't hesitate to plan simply for a wedding. Perhaps shortness of notice or uncertainty about leave for the groom, will put anything elaborate out of reach. However, with a general plan of a flexible sort made out, complete with accurate lists of everything from the guests to the punch recipes, everything can go smoothly.

We've been making plans for a wedding luncheon at home and of course these foods are uppermost in my mind to-day.

WEDDING MENU

Chicken Bouchees **Dainty Sandwiches** Small Cakes and Ices

Cookies and Tea Wedding Cake and Punch

Small Sandwiches: Stretched butter is used; fillings of cream cheese with minced salted beans . . . minced tongue, pimento or grated carrot, mayonnaise minced chicken, salt, paprika, mushrooms, seasonings, suspicion of crumbled crisp bacon . . . chopped hard-cooked egg, en is, young

onion, dressing. Rolled Bread: With spread of stretched butter or cream cheese and mayonnaise, well-drained fresh-cooked asparagus, or tuck a small sprig of cress into one end of each roll before cerving.

LEMON QUEENS

¼ cup butter, ¼ cup sug.". grated rind of 1/2 lemon, 1 tsp. lemon juice, 2 egg yolks, 5/8 cup flour, 14 tsp. salt, 1/4 tsp. s (scant), 2 egg whites.

Cream butter, add sugar gradually, and continue besting. Add grated rind, lemon juice, and egg yolks heaten until thick and lemoncoloured. Mix and are soda, salt, and flour; add to first mixture and beat thoroughy. Add egg whites beaten stiff Sake .9 to 25 minutes in small tass in electric oven (350 Deg. F.)

CREAM CAKE

2 -as, 7/8 cup sugar, 2/3 cup thin cream, 1 2/3 cups flour, 21/2 tspns, baking powder, 1/2 tsp. salt. tsp. vanilla.

Put unbeaten eggs in a bowl, add sugar and cream; beat vigorously. Mix and sift remaining ingredients; add first mixture. Bake 30 minutes in shallow caste pan in electric oven (325 deg. F.) Cut in small squares and frost.

CHOCOLATE CAKES

3 eggs, beaten until light, ¼ cup butter, 1/2 cup sugar, 3 squares chocolate, melted, 1 cup moist

remain clean longer if dipped into a thick starch solution. It will also stay in a better position on the

3. Make certain that "washed" floor mats are thoroughly dried before putting back on the floor.

The Question Box:

Mrs. J. A. says: Household linens will give longer wear if folded in different ways from time to time. This saves constant creases in the same places. If linen or washable clothing becomes scorched during ironing, soak it at once in cold starch water. Wash again

Mrs. S. T. says: If an omelet gets "done" too much, transfer it to a platter immediately, make a tomato sauce from a tin of tomato soup thickened with a spoonful of mashed potatoes and pour over omelet.

Anne Allan invites you to write in your suggestions on homemaking problems and watch this column for replies.

HELP YOUR GRO R

"Don't be a plunker." This is the advice given housewives by Byrne Sanders, director of the Consumer Branch of the Prices Board.

"A plunker," declares Miss 5anders, "is a shopper who plunks all her ration books on the counter for the grocer to go through, finding out what a good shopper should know herself. Seven million coupons change hands every business day in Canada. How would you like to be asked five hundred times a day what butter coupons are Cream butter, add sugar, eggs,

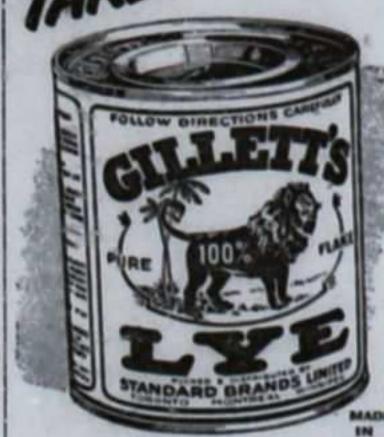

"Women can help greatly by flour. Spread mixture in shallow knowing in advance which coupons are valid. Do not complain and grumble because service is slow and you must carry parcels yourer in pairs with cream icing besel! Remember your grocer has all this to contend with. His profits are controlled, his help is in the armed services or war plants, he 1. Washable floor mats should has fewer things to sell, he loses be washed in real coapy water that helf a night's sleep sticking all is not very hot. The carpet must those loose coupons on tally sheets be well-rinsed or else the washing to turn into his wholesaler, and his will merely serve to flush the dirt celivery truck is wearing out Check your ration book before you 2. A rag rug that is washed will commence your shopping.

MEAT STORAGE

Farmers and others who are in the habit of storing meat in cold storage lockers for the summer months are at liberty to follow this practice during suspension of meat. rationing, the Wartime Prices and Trade Board announces. If rationing returns, such meat will be subject to whatever coupon regulations are imposed.

The harder the cleaning job, the better Gilett's likes it Gillett's sails right in, cuts down on the elbow work, leaves floors spotless, garbag pails sweet; keeps drains freerunning. Use full strength for drains and sink pipes, in solution* for cleaning. Gillett's is a tip-top all-around cleaner that lightens all your hard cleaning loads. Stop right now working so hard. Get Gillett's. Never dissolve lye in hot water. The action of the lye itself heats the water.

SALE! Dollars at Half Price!

Sounds like a sure-thing bargain. But how many of us realize that in Canada we're getting dollars at less than half the price of other years ... et a fraction the price in many other countries to day. Here's what we mean. A dollar is worth as much as it will buy. And to day your dollar buys at least twice as much as it did in the last war A . For instance, your (50) buys a bar of laundry that cost in those days. To day, you can buy the same quality felt fedora for that set you back then. Truly your dollar is half price since it buys twice as much. Price ceilings and other anti-inflationary measures have kept its value HIGH! And you protect your dollars worth every time you buy a bond ... pay off a debt ... refuse to hoard goods or frequent black markets. That's how to make dollars count MORE!

Make This.

I promise to give my support to keeping the cost or living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonda and War Savings Certificates. And I will support taxes which help lower the cost of living.

BREWING

MYARIO

Keep Your Pollar Value High!

SPORTOLOGY

By Bones Livingston, Sportologist

"OH DEATH, WHERE IS THY STING?"

This column wishes to extend to Roy St. John, its most tender and heartfelt sympathy for what he will have to go through in the days to come. Sherman said "War is Hell". Hitler has proved that statement. But what Roy is going to suffer will be worse than anything that either Sherman or hitler ever concocted. James "Elfrida" busy. Dunham has severed his connection with the Metal Craft and gone to work for the Quality Meat Market. He will be a working mate of that Man of Few Words, Oliver Oliphant Shaw. Jimmy being a man, who, in his youth, was vaccinated with a gramaphone needle will make a good partner for Oliver, but what about poor Roy. Our advice to Roy is to immediately procure a couple of sets of sound-proof ear drum protectors, for without a shadow of a doubt, the flow of vords around that butcher shop in the future will be enough to send any Minister of the Gospel out on a three months' binge. There will be many a day that Roy will curse Webster for ever compiling the dictionary.

Last reports from Johnny Vooges, the one-man St. Joseph's team, is to the effect that he can lick any other one-man team in the league. No holds barred. . . . It won't be long until the finny tribe that infest the northern waters around Dunchurch, will be seeking their hiding spots. Little Whizzer and Helen are due to leave for the bush on or about the 25th of June. I have wired the editor of the Dunchurch Fish Monger as to piscatorial conditions and expect a reply any day. I just want to know how the fishing is in that district before the Whizzer gets there so that if he comes back with any tall tales about no fish being in the lakes, like last year I, can give him an argument. . Just a reminder to you beauteous things called ladies, that you have two more weeks in which you can try and set up a high score and a high triple score. For each of these efforts The Bowlaway is giving the winner a lovely china Cup and Saucer. You can be assured that they will be of the choicest selection because Helen is doing the picking. You still have time to duck in and bowl a few games and take a gamble on winning this week's crockery.

Men's Bowling league wound up their too long a season this week. Eight teams went into action in the playoffs on Monday night. Unfortunately the first set of play-downs did not finish without a squabble. Black Cats and Wonders got into a jangle over the question of whether the Wonders should have used their sixth player. I am not going into the argument any further than to state that rules are rules and any team that does not want to live up, to them should be given the merry old heave-ho out of the league. Black Cats clawed their way to a win in the first game by a cool 100 points. In the second frame the Wonders came back strong and copped by 66 points. The third stanza was a dilly with both teams rolling over a 1,000 to give the Wonders the game by the slight margin of six.

Little Whizzer Kanmacher led his ferocious Pirates into battle against Doug. Hartnett's red hot Gas House aggregation and this set of games produced plenty of excitement and frayed nerves. The Gas Housers made no mistakes in the first inning bowling a total score of 1102 to win by 182 points. Pirates scuttled the Gas boys in the second tilt when they hit a high of 1160 to win by 48 points. In the third

cauto the Gas crew led at the finish by an even 100. Pirates rolled a triple score of 2995 but the Gas Housers beat it nicely with a 3229.

Buffalo Bill Allan and his Pony Express got ambushed somewhere the other side of Denver and Bill Sullivan's Generals are accused of the dirty work. The army named team went to town in two straight games, taking the first with a margin of 81 and the second by 57 points. Art Porester and his scissor wielding Barbers sunk the one-time famous champion Highway team in nifty fashion in two games. They won the first by 147 and or me back fast to grab the second by 52 points.

Next Tuesday night the Men league will hold their banquet at the Village Inn. Thanks to Little Whizzer all the proceeds from games played on the alleys on Tuesday night, with the exception of the pin boys' wages, will be donated to the Cigarette Fund. Girls, get busy. The alleys will be free of males and here is your chance to have the alkys all to yourselves and at the same time help out the Cigarette Fund.

Semi-finals of the play-offs were completed on Tuesday night. In the first set of games the Gas House boys gave Bill Sullivan and his Generals a walloping from the word go. In two games the Gassers rolled up a score of 2284 as against the Generals 1941. Poor Percy Shelton had one of his bad nights again, only gathering himself 553 points in the two games. In the second series Art Forester and his barbers were stacked up against the Wonders. Art took the blinkers off his lads and they breezed two frames in sensational time to send the Wonders back to Wonderland to wonder what happened. The lather slappers were really bowling, taking the first game by 150 lengths and the second race by 108. This brought the Barbers and Gas House to ether in the finals, which were played last night.

All he-male bowlers are reminded that the big fight across the banquet tables of the Village Inn, on Tuesday night next, commences promptly at 5.45 o'clock. If you don't want to miss any of the soup, squab or candied yams be there on time.

The Swift training rifle shown above, developed for the purpose of teaching recruits how to shoot, is a device designed in Canada and used solely by Canadians. The muzzle of the rifle is within an inch of the target and when the trigger is squeezed a little arrow pierces the target and shows just where the recruit was aiming. The instructor can thus accurately determine if the recruit is tilting the rifle, aiming incorrectly or 'pulling' the trigger. It has proven a valuable training aid and while it looks as if everyone should hit the bull from such close range, the bull corresponds to one at 25 yards. These pictures were taken at the Prince Albert training centre, commanded by Lieut-Col. F. Thompson. Petraing out features of the rifle is C.Q.M.S. A. M. Mackie, Saskatoon.—— andian Army Photo).

The Milking Stool

Another Symbol of the HARD WAY Becomes a Relic

One by one the time-taking, tiring and tiresome hand labor chores of the farm have been eliminated by a machine that does the work easier; quicker and more profitably.

Ing been a symbol of the hard way to do a job. But more and more dairymen are spending less time on milking stools now. Shortage of help and pressure of work have emphasized the value of using machines instead of muscles wherever possible, and dairymen have found the answer in the mechanical milking machines.

Because the purchase of a milking machine saved them hours of time and labor, thousands of dairymen have been able to carry on and benefit from the great demand for dairy products in recent years. "Hand milking" is out for them now that they have experienced the comfort and convenience of a machanical milker.

In the progress that Canadian agriculture has made in improved methods and practices, equipment engineered and manufactured by Massey-Harris has played an important part. Among the time and labor saving machines your local Massey-Harris dealer has to offer is the Rite Way Milker. Make it a point to ask him for full particulars.

The Effect of the "HOURS OF WORK AND VACATIONS WITH PAY ACT 1944"

ON BUSINESS AND INDUSTRY IN ONTARIO

ON JULY 1st, 1944, the "Hours of Work and Vacations With Pay Act, 1944" becomes effective in the Province of Ontario.

While it is the purpose of this Act to provide improved conditions for all workers employed in industry in this Province, it will be obvious that the provisions of the Act connot be permitted, at this time, to interfere with the chout capacity effort required in producing material for wer.

The Industry and Labour Board, which will administer the Act, therefore, considers, in view of the present acute manpower shortage and the vital demands of war, that the application of the Act should be postponed and working conditions in force at present should not be arbitrarily changed.

The Board therefore authorizes the continuance of Existing Working Hours in all in justries operating on priority War Material in the Province of Ontario.

Industries engaged in Agriculture, Horticulture, Fishing and the Production of Foods and Farm Products; Dairying Industries including Cheese and butter; Firms engaged in the building and upkeep o' roads, construction, transportation, textiles and other undertakings which can be considered essential to the full maintenance of the war effort, shall be considered in the category of War Industries insofar as their present working hours are concerned.

Preparation of the groundwork for the operation and application of the Act will go forward immediately but the Industry and Labour Board wishes it to be understood that these preparations will not be permitted to interfere in any way with existing working conditions in vital industry as long as the present crisis exists.

A few minutes later the brakes 'ei loose and the car rolled across the sward and over the bank headed for the creek Small tress stopped its progress from going completely in the creek. West End Motors wrecking crew pulled it out undamaged

Hon. George Doucett. Ontario's Minister of Highways, met Friday morning with the special roads committee of Lincoln Counc Commission. Mr. Douce't was accompanied by his deputy minister, J. P. Marshall and H. .. Eston. district representative i., the Department of Highways. The visit. was informal and was requested by Mr. Doucett who is visiting all county cor-cuttees to discuss their problems and make a brief tour of their road systems for his own observations.

Alf. LePage's Cities Service garage is specializing in ambulance repairing these days. Twice last week the Chief's staff were called upon to help ambulance crews out of difficulties. First an ambulance

amous for flavour since 1892 the 'Salada' name assures you of a uniform blend of quality teas.

from Montreal after they had de- on Friday an ambulance from livered their patient in the east Windsor had to be towed in off the end of the county experienced Queen Elizabeth and it wasn't long Frank Bentley has grected a new trouble and Alf soon had them until Sammy Stuart had her purrgarage on his property on Doran started merrily on their way. Then ing like a kitten.
